

PATMOS-x Cloud Properties

CLIMATE DATA RECORD SPECIFICATIONS

- Global coverage
- 0.1 x 0.1 degree equal-angle grid
- Daily orbital product
- 1979–present
- Preliminary data updated daily
- Final data updated annually

VARIABLES TO THIS

CLIMATE DATA RECORD

- Cloud height
- Cloud-top pressure
- Cloud fraction
- Cloud type
- Surface temperature
- Total precipitable water

SOME USES OF THIS

CLIMATE DATA RECORD

- Detecting and studying climate variability
- Input for solar energy production studies
- Applying data to hydrology studies
- Verifying and validating climate models
- Input for aviation safety studies
